Portfolio

PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in Full-Stack Web Development and MERN Stack technologies. Proficient in React.js, Node.js, Express.js, MongoDB, JavaScript, PHP, and SQL, with experience building responsive web applications, RESTful APIs, and scalable backend systems. Strong foundation in software engineering, database management, and frontend-backend integration, with a passion for developing innovative and high-performance solutions.

TECHNICAL SKILLS

Programming Languages : HTML, Css, JavaScript, C/C++,PHP

FrameWork : React.js, Node.js, Express.js

Libraries : Tailwind, Bootstrap, AOS, Fullpage.js, DataTables, Swiper.js, HighCharts, Google Chart, Leaflet, etc...

Databases/Tool: SQL, MongoDB, Git, Postman

EXPERIENCE

Krishaweb Technologies – Web Developer Intern

Jan 2026 – April 2026

- Developed responsive web solutions using HTML, CSS, JavaScript, React.js, PHP, and SQL, ensuring seamless functionality across multiple browsers and devices.
- Crafted reusable UI components and optimized page layouts to enhance accessibility, usability, and user engagement
- Maintained relational databases, executed complex queries, and supported data-driven features for business applications.

Weavolve Solution– MERN Developer Intern

May 2025 – June 2025

- Architected full-stack solutions using MongoDB, Express.js, React.js, and Node.js, contributing to modern and scalable digital products.
- Integrated client-side interfaces with server-side logic, ensuring smooth data flow and consistent application behavior.
- Implemented RESTful services, authentication mechanisms, and database operations to support secure and reliable system functionality.

PROJECTS

Agri Connect | Smart Farming Platform

- Engineered a **MERN-based agricultural platform** featuring weather forecasting, Pest-Wiki, government schemes, and crop management resources.
- Integrated external weather services and developed **RESTful APIs** to manage user, crop, and agricultural data efficiently.
- Strengthened application security through **JWT authentication**, protected routes, and role-based access control mechanisms.
- Leveraged **Context API** and Axios to streamline state management and enable seamless client-server communication.
- Designed personalized dashboards and advanced search functionalities, improving accessibility to crop records, weather insights, and farming resources.

Elite-Mart | Online Shopping Website

- Architected a scalable **full-stack eCommerce application** using React.js, Node.js, Express.js, and MongoDB to deliver a modern shopping experience.
- Developed a secure administration portal with **CRUD operations**, user management, product catalog management, and role-based authorization.
- Integrated Cloudinary for efficient product image uploads, ensuring optimized media delivery and reliable cloud storage.
- Implemented **PayPal payment processing**, enabling secure online transactions and streamlined checkout workflows.
- Enhanced product discovery through advanced filtering, sorting, and search capabilities while utilizing **Redux, React Hooks, and shadcn/UI** for efficient state management and responsive design.

CERTIFICATIONS

- Web Design for Everybody: Basics of Web Development & Coding | Coursera** [view]
- SQL: A Practical Introduction for Querying Databases | Coursera** [view]
- Initiating and Planning Projects | Coursera** [view]

ACHIEVEMENTS

- Odoo Hackathon Finalist
- Participant – SHI Hackathon 2025

EDUCATION

A. D. Patel Institute of Technology, Anand

– B.Tech –Information Technology | CGPA: 9.29/10

May 2026
